NATIONAL ARCHIVES MICROFILM PUBLICATIONS

INTRODUCTION

On the 225 rolls of this microfilm publication are reproduced the compiled records that give the military service histories of units in volunteer Union organizations. The compiled records are card abstracts containing information relating to the stations, movements, or activities of each unit or a part of it, and frequently to its organization or composition, strength and losses, and disbandment. Sometimes the names of commanding officers, the dates the unit was called into service and mustered out, the terms of service, and similar information are included.

The compilation of records of service by military units of volunteer Union organizations was undertaken simultaneously with the compilation of the service records of volunteer Union soldiers. The work was begun in 1890 under the direction of Capt. Fred C. Ainsworth, head of the Record and Pension Division of the War Department. The abstracts were made from original muster rolls and returns in the custody of the War Department and from rolls borrowed from the Second Auditor of the Treasury. The abstracts made from the original records were verified by a separate operation of comparison, and great care was taken to ensure that the abstracts were accurate.

Most of the compiled records reproduced on this microcopy are arranged alphabetically by State or Territory. The remainder are for units that were not limited to any one State or Territory; among them are the U.S. Colored Troops, U.S. Volunteers, and U.S. Veteran Reserve Corps. The records are further arranged by organizational breakdown under each unit.

Most of the compiled records for each organizational unit are in jacket-envelopes bearing the title "Record of Events" and giving the name of the unit. Many of the cards contain abstracts of the record-of-events information as found in original muster rolls and returns. Also included are some cards showing the exact captions of the muster-in and muster-out rolls that were copied and the certifications by the mustering officers verifying the accuracy of the rolls. The jacket-envelopes for a few units contain no documents but do contain references to other units with which these units were merged. In some instances the references concern transfers of documents.

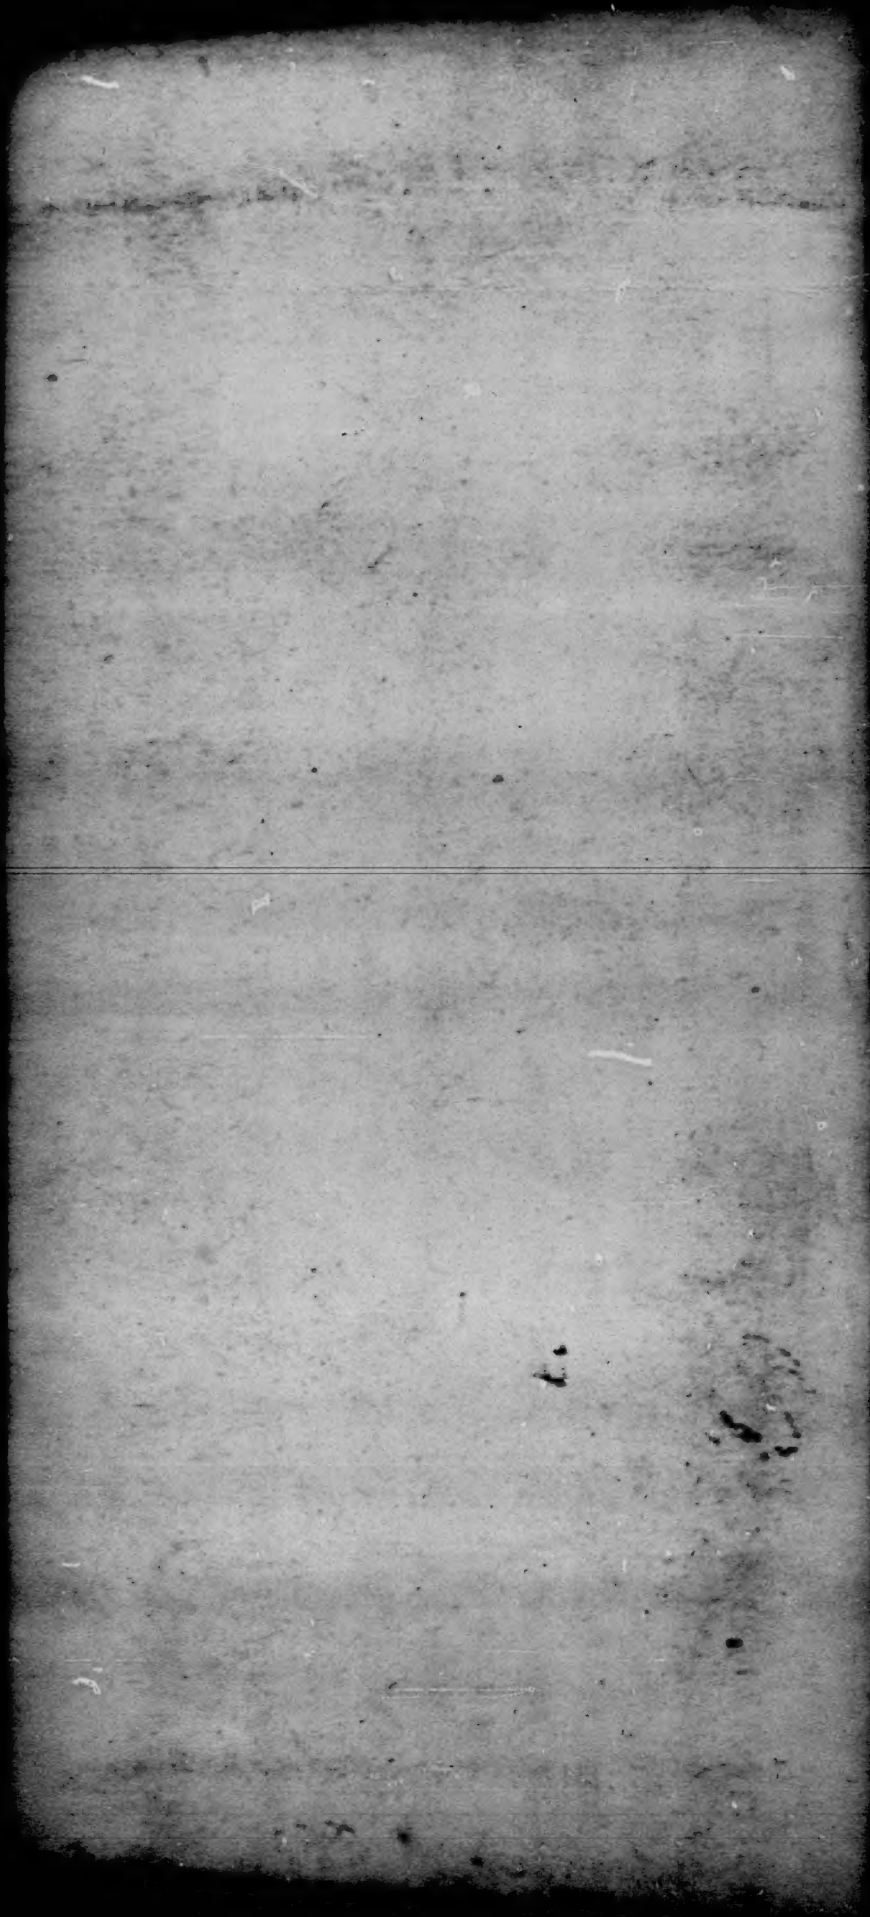

Preceding the jacket-envelopes for the organizational units there sometimes are envelopes containing general notation cards giving information relating to the units. Some of the notations are statements of determinations made by the War Department concerning the service of the units; others contain information that was found in original records other than muster rolls and returns.

NATIONAL ARCHIVES MICROFILM PUBLICATIONS

There are some card abstracts made from returns that are not in jacket-envelopes. These abstracts were accumulated by the War Department to be interfiled with the regular abstracts but were not interfiled, for one reason or another. The usual reason was that the abstracts made from returns were compiled later than those from muster rolls and in some cases the War Department failed to complete the filing of them. The National Archives has collected all the unjacketed abstracts that could be found for each unit and has filed them immediately after the jacket-envelope containing related abstracts for the unit. A card labeled "Additional Card Abstracts of Records" has been placed at the beginning of each set of unjacketed abstracts to distinguish them from the ones that are in jacket-envelopes.

The National Archives also has compiled service records of the volunteer Union soldiers who served in the units whose service histories are reproduced in this microcopy. They consist of a jacket-envelope for each soldier, labeled with his name, his rank, and the unit in which he served and typically containing (1) card abstracts of entries relating to the soldier as found not only in original muster rolls and returns but in other original records such as hospital rolls, descriptive books, and lists of deserters; and (2) the originals of any papers relating solely to the particular soldier. In a few instances there are compiled service records for volunteer Union soldiers who served in units for which there are neither record-of-events nor general notation cards; consequently, there is no record of such units in this microcopy. These units generally served only for short periods (about 1 to 3 months) or failed to achieve a complete organization. There are card indexes that may be used to locate the compiled service record of a volunteer Union soldier. Most of the indexes and some of the compiled service records of volunteer Union soldiers have been microfilmed.

The compiled records showing the service histories of units in volunteer Union organizations reproduced in this microcopy, the compiled service records of volunteer Union soldiers, and the indexes to the latter are part of Record Group 94, Records of The Adjutant General's Office.

INDIAN HOME GUARDS

At the time the records of the Indian Home Guards were compiled it was thought that these units should be credited to the State of Kansas. The War Department later determined that this assumption was not correct and, accordingly, placed the following statement on the label of each box containing these records: "Not a Kansas Org'n. Statements must not be made to show it as such." Corrections, however, were not made on the jackets and cards, on which the words "Kansas Inf." were printed.

RECORD OF EVENTS

The Regiment was in the battle of
Pine Bluff and under fire while
the Division (the 1st) with which it
was connected was engaged in the
battle. The men behaved well and
rendered good service as skirmish-
ers. More were wounded and killed
than is reported. It is probable,
but owing to the fact that the
majority of the companies have been
without officers able to keep a
correct record of changes as they
occur, some facts must be passed
over unavoidably in a
monthly report. The great

RECORD OF EVENTS.

March 17, 1863, Regt moved from
Bentonville and went into
camp (Moonlight) on Flint
Creek Ar Kansas. On the 23^d
again moved to camp. Somewhere
some 12 miles west from
Fayetteville, Ark. April 3^d
marched to the town or village
of Cincinnati, Ark. distant
from last camp about 15 miles.
On the subject of this which
relates to the discipline and
efficiency of the regiment much
might be said. But two things
are of paramount importance

Neg: The addition of Ordealy or
1st Sergeants - white men and the
procurement of arms. As to the
last, the Regt has now very
many men without any arms
at all and many now sup-
plied with guns can use them
to but little purpose owing to
their inferior quality. The
rifles furnished the regt -
common sporting rifles were
never intended for the service
in which the Indians are
engaged. The addition of
white Sergeants would insure
the presence of one in each
co. who could keep up the
paper and co. drill both
which are unavoidably
delayed in the absence of
white Lt. or scout to other
duty

RECORD OF EVENTS.

At the time the first Indian Regiment was ordered from Le Roy Kansas to Ft Scott Co. and Co Companies failed to accompany the Regt except a few men of this (C) company who attached themselves to other companies of the Regt but were so few in number that the commanding officer did not deem it necessary to muster them as at Co on the 31st of Aug 1862 when the remainder of the Regt mustered.

RECORD OF EVENTS.

This muster roll will not agree with the original muster in roll of the Co and the following remarks are necessary to explain the cause therefor to wit: at the time the Regt moved from Le Roy Kans about the 1st of Sept/62 this company did not accompany it. In the latter part of Dec 1862 the Co joined the Regt. During all the time the Co was at Le Roy and up to the time it joined the Regt the Co was not mustered, except a few that were mustered Oct 31/62. At this muster of Dec 31 an attempt was made to muster the Co from the names appearing on the old muster in roll but only a small portion of the names (over)

H. Miller

JUN 20

10467805

appearing thereon could find
ourselves in the Co owing to
the improper manner in
which they were spelled and
pronounced and the hasty
and crude manner in
which the roll was made out.
So the Col Comdg (Lt Col S H
Mattles) ordered the Co mustered
in a true and correct manner
taking all the names correctly
and entering them carefully
on the roll regardless of the
old list of names so as
to avoid further confusion
in names and to the end
that in the future from
Jan 1/62 a correct and
true history of the Co
might be kept.

 since last month. In
 argument, Lou et al. and
 Tuffenlotter in Tibet.
 Both attacks were repulsed.
 Squirt Star was killed.
 Tuff escaped and came in
 after killing a great deal
 of game. Cold for many days.
 These men lost their arms,
 clothes and equipment.

It is a notable fact that not one member of the Company has been intoxicated in the last four months; neither has there been a quarrel or cause for arrest during that time. All orders for details

Company B marched with
the Regt and Indian Expedition
to Camp on Grand River with-
in 12 miles of Ft Gibson. Re-
mained there scouting in
every direction until the

among the Superior officers
which thwarted the design
of the expedition and caused
a backward movement of all
the troops to Texas Springs.
Most of this company went
home without leave but re-
turned when sent for. First
Lt Scott was taken prisoner

THE ADJUTANT GENERAL'S OFFICE,
 WAR DEPARTMENT.

Washington, March 20., 1915

The records show that this officer accepted the appointment of colonel of the 5th Regiment Indian Brigade January 10, 1863.

It has this day (March 20, 1915) been determined by this Department that the acceptance of this officer of the appointment as colonel of the regiment mentioned inducted him into the military service of the United States as of that grade and organization; that he was discharged the service as such September 15, 1863, in

W. W. Gibson Over

fulfillance of Par. 9, Special
Orders, No. 388, War Depart-
ment, A. G. O., dated Au-
gust 29, 1863, because
the regiment failed to
organize and that compliance
of said orders as shows
that his appointment was
revoked and that he was
mustered out of service
to take effect from the date
of his appointment is er-
roneous.

The records show that
he reported for duty under
his appointment as colonel
April 12, 1863, and that
he was relieved from
duty September 15, 1863.

In the case of Charles P Jones
RFP 311859 H 809 the
following statement was made
by the C of P and was
also made to the Auditor

The appointments of the officers of the 5th Regt Indian Home Guards were revoked and the officers mustered out from the dates they accepted their appointments, by S.O. 388 Aug. 29. 1863 from this Dept., for the reason that there were no commands for them, the regiments having failed to organize.

A Joint Resolution of Congress was passed June 30. 1864 Authorizing payment to such officers of the Regiment as had accepted appointments, for the time they actually performed duty other than that of deserting.

The roster of officers appointed for the 5th Indian Home Guard shows that Charles P. Livias accepted an appointment as Captain for that regt. Feby 1 63, that he reported for duty

April 20. 1863 and that he
was relieved from duty as such
Sept 15. 1863 under S O NO
388 dated Aug 29. 1863 from
this Dept. Heretofore referred
to.

The remarks opposite his
name on said roster are as
follows "assigned to duty

Dear Sir:

Col Phillips proposed to prepare a statement of services performed by the officers of the 4th and 5th and 8th Regts. of he has made up the statement - I would like to procure a copy of it if it is not too long - I desire to see all the evidence I can in reference to my services - I have all of my Orders except those Detailing me as Field Officer of the day and the one ordering me to report to Col Wadley when about to march to Stony Springs,

If you can, please send copies of the Orders in a statement covering the services if it is not already embraced in Col Phillips report - The Orders would be the best evidence

I don't wish to trouble you too much but I would like to get this matter in the best shape possible - if I should be obliged to produce evidence of service I want it at hand -

I think I forwarding all this evidence to Mildon when I get it together -

Respectfully

RECORD OF EVENTS:

The Regiment at last mustered was at Ft Henry Tenn on the Tenn River but that river beginning to fall was compelled to come out since which time it has been running on the Miss River between Cairo and Vicksburg. We in an engagement with the enemy at Audin Miss on the 2nd day of May above Richmond La on the 15th of June and on the 30th of June at Tenese Bayou near Deadrick Landing La made an attack between ten and twelve miles from the river and was each time successful in routing the enemy. A 20th Par bat Gun has been planted on the Point immediately in front of Vicksburg within 40 yds of the river protected by a fort caissoned with rail road iron,

iron.

This fort was built and gun worked by detail from the Regt under the direction of 2d Col Geo. F. Turner and Capt Gross. The gun did excellent execution and although having drawn tremendous fire from the enemies batteries remained unharmed up to the present date. It has blown up the enemies Foundry and completely stopped its work and besides injuring other buildings, killing and wounding a great number of the enemy and preventing them from approaching the river.

Berwick's Bay - all heavily laden with commissary stores for the rebel army at Port Hudson. She returned to De Cade point below Vicksburg on the 5th. On the 10th she started down the river on a second expedition. She captured and destroyed a rebel supply train near the mouth of the Atchafalaya river and a large amount of Commissary stores at Simmsport, Louisiana. She ascended the Red River & captured the steamer Era No. 5 (also laden with provisions), and put two others to Gordon's Landing, or Fort De Russel. The Fort opened fire with four 32 pdr. guns, and the pilot of the Queen either by accident or design ran her aground within 250 yards of the Fort and in such a position that none of her guns could be brought to bear. Her steam pipes were soon cut and the vessel rendered helpless. She was therefore abandoned. A number of sick and wounded on board prevented the Colonel from destroying her. The most of the officers and crew made their escape on the captured steamer Era No. 5 which vessel arrived at a point below Vicksburg in safety after having run the gauntlet of many round field batteries placed on the bank of the river to cut off her retreat. Col. Ellet brought back on the Era 150 bales of superior cotton and five captains, four lieutenants and fourteen privates as prisoners.

Admiral Farragut's support, in compliance with his (Farragut's) written request. On the morning of March 25 an hour before day light, the two rams started on their perilous trip past the batteries - the Switzerland commanded by Col. Chas. A. Ellet and the Lancaster by Lieut Col. John A. Ellet. When just opposite the city, the boilers of both vessels were perforated by rebel shot. The hot steam rushed out of the boilers with implacable fury and the vessels became helples floating masses with no more headway than that given them by the current while six miles of powerful batteries were yet to be passed. The Switzerland, taking the current of the stream, floated past the long line of batteries, and out of the range of their guns. The Lancaster, less fortunate, caught in an eddy half a mile below the city and remained almost stationary until she was literally shot to pieces and sunk. She was a small boat of insignificant cost and very old and rotten. The Switzerland was quickly repaired and in three days joined Admiral Farragut below New Orleans in good serviceable condition.

Casualties on the Switzerland - two Contrabands scalded. Casualties on the Lancaster - 1 man drowned, 1 wounded and 1 scalded.

Boomed the town of Austin for the complicity of its inhabitants in the outrage of burning the boat, for firing on the Fairchild and attempting to lead the cavalry into ambush. arrangements with Gen. Massey to meet his command at the forks of the road three miles from Richmond and then proceed with the united force upon the town. The enemy resisted our advance but finally fell back behind a levee on the opposite side of a Bayou and burned the bridge to prevent us from following. Our artillery was placed in battery and an effort made to shatter the enemy from his position. The fight was continued but a short time when Gen. Ellet ordered a movement of three regiments of infantry by the right flank through the woods to reach the enemy's left wing. The enemy did not wait the result but fled in great haste leaving their dead and wounded badly wounded on the field. We captured thirty prisoners and 35 stand of arms. We also on the night of the 18th inst. by consent of Admiral Porter, planted a 10 lbs. gun on the S. E. point opposite Vicksburg. This gun was under the control of H. Nichols of the Light Battery and created quite an excitement along the enemy's line. H. Battery they opened heavy fire upon the battery but did no damage. On the night of the 20th planted a second small gun (ten lbs. rifled) ably in position under command of H. B. Nichols of the Light Battery. The enemy still moved about firing rapidly with their heavy guns. On the night of the 21st moved down a third gun (twenty lbs. Parrott) under command of H. B. Nichols. E. Carnes and continued the labor of excavating it with rail road iron. It was fired through the night and the work directly in front of the city in plain view of all their batteries on the opposite front and not more than 1000 yards distant from several of them. On the 25th all three guns fired upon the city causing a tremendous bombardment from the long line of rebel batteries which continued every day without effect upon our line but with signal success on ours. The foundry of the enemy which had been working day and night shot and shelled the iron thrown by our mortar into the city was entirely destroyed by our guns - one shot from the 10 lbs. Parrott passing through the boiler and many others striking the building. A large number of houses with historical much damage done. Received information on the 29th from Admiral Porter that the rebels had attacked Brookhaven landing and Lake Providence, and was ordered to proceed at once to the point of attack. Arrived at Lake Providence on the morning of the 30th - found all the buildings between the two points had been burned, looted and with the heavy brigade under Col. Chappard started in pursuit of the enemy. Overtook him 12 miles out at the crossing of Bayou Fences. After a sharp engagement the enemy retreated again burning the bridge to obstruct our crossing. We captured one wagon, several prisoners, a small number of small arms and a large amount of stolen property abandoned by the enemy. The enemy left three dead upon the field. Our loss was one captain mortally wounded. Steam fleet operating on Red River.
